What is this product?

Type	This product is a share of an investment company qualifying as an undertaking for collective investment in transferable securities (UCITS).
Term	This sub-fund has no maturity date. However, the board of directors may decide to close the sub-fund under certain circumstances.
Objectives	To provide long-term capital growth through exposure to companies located in frontier markets throughout the world. The sub-fund will invest at least 75% of its assets directly or indirectly in equity or equity-related securities (such as, but not limited to, ADRs and GDRs) of companies domiciled in frontiers markets or that exercise a significant part of their economic activity there. For the purpose of this sub-fund, frontier markets are defined as less advanced and less accessible emerging market countries that are included in Frontier Markets-related indices. The sub-fund may also invest in any country which is classified as an Emerging Market, or any other market not yet classified as Frontier Markets, but which, in the opinion of the Investment Manager, demonstrates economic characteristics of countries included in the Frontier Markets-related indices. *Benchmark:* The portfolio is actively managed on a discretionary basis with reference to a benchmark. While the product compares its performance against the MSCI Frontier Markets Index (Total Return Net), it does not try to replicate this benchmark and freely selects the securities that it invests in. The deviation with this benchmark can be significant.
Intended retail investor	This fund may not be appropriate for investors who plan to withdraw their money within 5-10 years.
Other information	*Depositary:* Skandinaviska Enskilda Banken. AB (publ) – Luxembourg Branch *Dividend income:* This class is a capitalisation class meaning that income is reinvested. *Conversion right:* The investor has the right to convert his investment in shares of one sub-fund into shares of the same sub-fund or another sub-fund. The investor can obtain information about how to convert in the prospectus of the fund. *Segregation:* The assets and liabilities of a sub-fund are segregated pursuant to the law so that the commitments and liabilities of one sub-fund do not affect the other sub-funds. *Additional information:* Additional information about the fund, copies of its prospectus, the latest annual and semi-annual report and the latest prices of shares may be obtained free of charge from the Management Company or on www.eastcapital.com. The prospectus and the periodic reports are prepared for the entire fund and are available in English. The Management Company may inform you about other languages in which these documents are available. This sub-fund was launched in 2014 and this share class in 2014. The reference currency of the sub-fund is expressed in EUR. The currency of the share class is expressed in SEK. For this share class, the foreign-exchange risk of the share currency is not hedged against the sub-fund's reference currency.

What are the risks and what could I get in return?

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Be aware of currency risk. You may receive payments in a currency that differs from your reference currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The sub-fund is also exposed to the following materially relevant risks that are not included in the summary risk indicator:
Currency risk, emerging market risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and of a suitable benchmark over the last 15 years. Markets could develop very differently in the future.

Unfavourable scenario: This type of scenario occurred for an investment between December 2024 and December 2025.

Moderate scenario: This type of scenario occurred for an investment between December 2014 and December 2024.

Favourable scenario: This type of scenario occurred for an investment between August 2012 and August 2022, by referring to a benchmark.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if East Capital Asset Management S.A. is unable to pay out?

If we are not able to pay you out what we owe you, you are not covered by any national compensation or guarantee scheme. To protect you, the assets are held with a separate company, the depositary Skandinaviska Enskilda Banken. AB (publ) – Luxembourg Branch. Should we default, the investments are liquidated and the proceeds are distributed to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:
- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- 100,000 SEK is invested

	If you exit after 1 year	If you exit after 5 years	If you exit after 10 years
Total costs	2,690 SEK	19,874 SEK	64,300 SEK
Annual cost impact (*)	2.7%	2.7% each year	2.7% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 11.5% before costs and 8.8% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
