Pictet - Short-Term Money Market CHF - R

RISK CONSIDERATIONS

All forms of investment involve risk. The value of investments and the income derived from them is not guaranteed and it can fall as well as rise and you may not get back the original amount invested. Please refer to the prospectus for further information.

MARKET REVIEW

July exports improved sharply, leading to a new monthly record trade surplus of CHF 8.1 billion, or around 11% of GDP. Nominal exports rose by 13.8% m-o-m (+10.7% real), whereas imports were disappointing, dropping by 4.5% m-o-m (-2.8% real). The surge in exports was once again driven by the key chemicals and pharma sector, which accounted for 25% of the increase in exports. On imports, the monthly decline was driven by chemicals and pharma, which accounted for a tenth of imports, and by vehicles, with weaker imports from Europe and Asia partly offset by stronger imports from North America, led by the US. All in all, the latest data further reinforce the upward trend in exports, while imports remain broadly flat. The August KOF composite leading indicator further surprised on the upside, rising well above trend to 106.7; the previous month was also revised up, signalling an even brighter economic outlook. The breakdown shows that the further improvement was driven by manufacturing, other services and foreign demand indicators, whereas the indicators for private consumption are slightly under pressure. Most of the sub-indicators within manufacturing also support the positive outlook. Overall, the latest figures suggest that the strong GDP growth momentum from Q2 should be maintained in Q3 as well, which further corroborates our view for above-potential growth this year.

PERFORMANCE ANALYSIS

During August 2026, performance was positive against the benchmark and in line with the objectives of the fund.

PORTFOLIO ACTIVITY - OVERWEIGHTINGS & UNDERWEIGHTINGS

Both the fund's weighted average maturity and weighted average life increased during the month, from 48 to 51 days and from 99 to 102 days, respectively. These increases were carried out through the purchase of longer maturity assets, without hedging these positions with SARON swaps. Regarding country allocation, we increased investments in Canadian issuers (13.7%, +1.1%), Swiss issuers (11.3%, +1.1%) and UK issuers (10.4%, +0.6%). Finally, strong liquidity was ensured by a high cash and T-Bills allocation (11.6%).

MARKET OUTLOOK

Volatility in rate expectations is likely to remain elevated, reflecting ongoing geopolitical uncertainty and shifting global monetary policy expectations. Recent developments in CHF short-term rates suggest that markets have scaled back expectations that the SNB will keep its policy rate unchanged, putting some upward pressure on the front end of the curve. Nevertheless, Switzerland's domestic fundamentals, including subdued inflation and moderate growth, do not currently justify a tightening of monetary policy. A modest weakening of the Swiss franc would be welcomed by the SNB, provided it does not translate into a meaningful increase in imported inflation.

PORTFOLIO STRATEGY

To achieve the main objectives of a money market fund, namely providing liquidity and capital preservation, we will maintain a high level of liquidity and keep focusing on credit quality while taking advantage of market opportunities.

General information

Legal form	Sub-fund of a SICAV
Domicile	Luxembourg
Launch date	1994-10-13
Inception date	12.12.2001
Share class currency	CHF
Compartment currency	CHF
ISIN	LU0128499588
Reference index	FTSE CHF 1-Month Eurodeposit (CHF)

INVESTMENT OVERVIEW

Objective
To preserve the value of your investment, while achieving a return in line with money market rates.
Portfolio Assets
The Fund mainly invests in short-term money market instruments that are issued by highly rated issuers and are either denominated in CHF or systematically hedged to this currency (meaning investments have little or no exposure to currency risk).
Investment Process
In actively managing the Fund, the Investment Manager uses a combination of market and issuer analysis to identify those securities that offer the best performance in light of interest rate trends. The Fund's management approach uses strict risk controls. The Investment Manager considers ESG factors a core element of its strategy by adopting a tilted approach which seeks to increase the weight of securities with low sustainability risks and/or to decrease the weight of securities with high sustainability risks, subject to good governance practices. Activities that adversely affect society or the environment are also avoided. There may be engagement with companies to positively influence ESG practices. For further information, please refer to our exclusion framework in the Responsible Investment policy*, SFDR product category Article 8. The portfolio composition is not constrained relative to the benchmark, so the similarity of the Fund's performance to that of the benchmark may vary.

The Responsible Investment Policy is available on https://documents.am.pictet.com/library/en/other?documentTypes=RI_POLICY&businessLine=PAM

The management company is regulated by the Commission de Surveillance du Secteur Financier (CSSF).

Important Information for all investors excepted investors based in the United Kingdom

For the purposes of this marketing material, the Fund means the sub-fund of the fund referred to at the top of page 1 and the share designates either the unit or the share, depending on the legal form of the fund. The promoted fund concerns the acquisition of units or shares in a fund, and not in a given underlying asset such as building or shares of a company, as these are only the underlying assets owned by the fund. This marketing material is issued by the Fund Management Company. It is neither directed to, nor intended for distribution or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation. The information and data presented in this document are not to be considered as an offer or solicitation to buy, sell or subscribe to any securities or financial instruments or services. It cannot be used as a basis for subscription and does not form part of a contract. The latest version of the fund's prospectus, Pre-Contractual Disclosures (PCD) when applicable, Key Information Document (KID), annual and semi- annual reports must be read before investing. They are available free of charge in English on www.assetmanagement.pictet or in paper copy at the management company address, or at the office of the Fund local agent, distributor or centralizing agent if any. The KID is also available in the local language of each country where the compartment is registered. The prospectus, the PCT, and the annual and semi-annual reports may also be available in other languages, please refer to the website for other available languages. Only the latest version of these documents may be relied upon as the basis for investment decisions. The summary of investors rights (in English and in the different languages of our website) is available here (https://am.pictet.com/ch/en/legal-documents-and-notes/summary-of-investor-rights) and at www.assetmanagement.pictet under the heading Resources, at the bottom of the page. The list of countries where the Fund is registered can be obtained at all times from the management company, which may decide to terminate the arrangements made for the marketing of the Fund or compartments of the Fund in any given country. In Switzerland, the representative agent is Pictet Asset Management SA and the paying agent is Banque Pictet & Cie S.A. The management company has not taken any steps to ensure that the securities referred to in this document are suitable for any particular investor and this document is not to be relied upon in substitution for the exercise of independent judgment. Tax treatment depends on the individual circumstances of each investor and may be subject to change in the future. Before making any investment decision, investors are recommended to ascertain if this investment is suitable for them in light of their financial knowledge and experience, investment goals and financial situation, or to obtain specific advice from an industry professional. Top 10 holdings do not represent the full portfolio. There is no guarantee that these securities will be held in the future and you should not assume that investment in the securities listed was, or will be profitable. Any reference to a ranking, a rating or an award provides no guarantee for future performance results and is not constant over time. For hedged share classes, only the compartment's consolidation currency is hedged into the share class currency. Foreign exchange exposure, resulting from assets in the portfolio which are not denominated in the consolidation currency, can remain. NAVs relating to dates on which shares are not issued or redeemed (non-trading NAVs) in your country may be published here. They can only be used for statistical performance measurements and calculations or commission calculations and cannot under any circumstances be used as a basis for subscription or redemption orders. Performance is shown based on the share class NAV per share (in the share class currency) with dividends reinvested (for distributing share classes), including actual ongoing charges, and excluding subscription/redemption fees and taxes borne by the investor. Inflation was not taken into account. As a subscription fee calculation example, if an investor invests EUR 1000 in a fund with a subscription fee of 5%, he will pay to his financial intermediary EUR 47.62 on his investment amount, resulting with a subscribed amount of (EUR 1000 / 105) * 100= EUR 952.38 in fund shares. The calculation method used is as follows: subscribed amount = (trade order amount / (100 + subscription fee rate)) * 100. In addition, potential account keeping costs (by your custodian) may reduce the performance. Indices do not include fees or operating expenses and you cannot invest in them. The decision to invest in the promoted fund should take into account all the characteristics or objectives of the promoted fund as described in its prospectus, or in the information which is to be disclosed to investors. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis. For more information, please refer to the Pictet Asset Management Responsible Investment Policy. For passive strategies exclusions are implemented to the extent portfolio structure, weight deviations, volatility and performance are not materially affected. The Market Data Specific Terms and Conditions shall apply to any individual or legal entity that receives from Pictet Asset Management market data such as, but not limited to, prices, ratings, indexes, regulatory data, research data and other information regarding financial instruments or other investments. They are available here https://am.pictet.com/ch/en/legal-documents-and-notes/market-data-specific-terms-and-conditions.
