For Professional Investors Only - Not For Use By Retail Investors

abrdn SICAV I - China A Share Sustainable Equity Fund

This is a marketing communication. Please refer to the Prospectus of the UCITS/Information document and the Key Investor Information Document (KIID) or Key Information Document (KID) as applicable before making any final investment decisions.

I Acc USD

31 August 2026

Objective

The Fund aims to achieve a combination of growth and income by investing in companies listed on Chinese stock exchanges, which adhere to the Fund's sustainability criteria.

The Fund aims to outperform the MSCI China A Onshore Index (USD) benchmark before charges.

Portfolio securities

- The Fund invests directly or indirectly (including through QFI, the Shanghai-Hong Kong Stock Connect programme, participatory notes, equity linked notes and any other eligible means) at least 90% in shares of companies whose securities are listed on Chinese Stock Exchanges, including, without limitation, China A-Shares and B-Shares of companies listed on the Chinese Stock Exchanges and corresponding H-Shares or other equivalent securities authorised by the CSRC for purchase by non-Chinese investors.
- All equity and equity-related securities will adhere to the Fund's sustainability criteria detailed in the Fund's "Sustainability related disclosures", which is published at www.aberdeeninvestments.com under "Fund Centre".
- Aberdeen Investments' Overall Sustainability Assessment (OSA) provides an overall view on a company's sustainability based on scoring of its governance, operations, and products and/or services. To complement this the Investment Manager's equity investment process is utilised, which enables portfolio managers to qualitatively identify sustainable leaders and improvers. Companies considered to be exposed to the highest ESG risks will be excluded. Additionally, a set of company exclusions are applied which are related to the UN Global Compact, Norges Bank Investment Management (NBIM), Weapons, Tobacco, Gambling, Thermal Coal, Oil & Gas and Electricity Generation.
- The Fund's sustainability criteria reduce the benchmark investable universe by a minimum of 20%.
- Financial derivative instruments, money-market instruments and cash may not adhere to the Fund's sustainability criteria.

Performance Data: Share Class I Acc USD
Benchmark History: Benchmark - MSCI China A Onshore.
Source: Factset. Basis: Total Return, NAV to NAV, net of annual charges, gross Income reinvested, (USD).
Costs may increase or decrease as a result of currency and exchange rate fluctuations. This may impact what you might get back. "Fund (Net)" refers to the actual unit price performance of the shareclass shown; "Fund(Gross)" adds back charges such as the annual management charge to present performance on the same basis as the performance target / performance comparator / portfolio constraining benchmark. All return data includes investment management fees, operational charges and expenses, and assumes the reinvestment of all distributions. The returns provided do not reflect the initial sales charge and, if included, the performance shown would be lower.
Past performance does not predict future returns.

Management process

- The Fund is actively managed.
- Through the application of this approach, the Fund commits to having a minimum of 50% in Sustainable Investments. It also targets an ESG rating that is equal to or better, and a meaningfully lower carbon intensity, than the benchmark.
- Sustainable leaders are viewed as companies with strong operational management of ESG risks or products and services which address global environmental and societal challenges, whilst Sustainable improvers are typically companies with average governance, ESG risk management practices and disclosure with potential for improvement.
- Engagement with external company management teams is used to evaluate the ownership structures, governance and management quality of those companies in order to inform portfolio construction.
- The benchmark is also used as a reference point for portfolio construction and as a basis for setting risk constraints, but does not incorporate any sustainable criteria.
- In order to achieve its objective, the Fund will take positions whose weightings diverge from the benchmark and may invest in securities which are not included in the benchmark. The investments of the Fund may deviate significantly from the components of and their respective weightings in the benchmark.
- Due to the active and sustainable nature of the management process, the Fund's performance profile may deviate significantly from that of the benchmark.

Risk and reward profile

Lower risk
Typically lower rewards

Higher risk
Typically higher rewards

This indicator reflects the annualised volatility of the returns over the last five years and may vary from the one disclosed in the relevant PRIIP Key Information Document (KID) for which another calculation methodology is used.

Key risks

a. The value of investments and the income from them can fall and investors may get back less than the amount invested.
b. The fund invests in equity and equity related securities. These are sensitive to variations in the stock markets which can be volatile and change substantially in short periods of time.
c. A concentrated portfolio may be more volatile and less liquid than a more broadly diversified one. The fund's investments are concentrated in a particular country or sector, or closely related group of industries or sectors.
d. The fund invests in Chinese equities. Investing in China involves a greater risk of loss than investing in more developed markets due to, among other factors, greater government intervention, tax, economic, foreign exchange, liquidity and regulatory risks.
e. Investing in China A shares involves special considerations and risks, including greater price volatility, a less developed regulatory and legal framework, exchange rate risk/ controls, settlement, tax, quota, liquidity and regulatory risks.
f. The fund may invest in companies with Variable Interest Entity (VIE) structures in order to gain exposure to industries with foreign ownership restrictions. There is a risk that investments in these structures may be adversely affected by changes in the legal and regulatory framework.
g. Applying ESG and sustainability criteria in the investment process may result in the exclusion of securities within the fund's benchmark or universe of potential investments. The interpretation of ESG and sustainability criteria is subjective meaning that the fund may invest in companies which similar funds do not (and thus perform differently) and which do not align with the personal views of any individual investor.
h. The use of derivatives carries the risk of reduced liquidity, substantial loss and increased volatility in adverse market conditions, such as a failure amongst market participants. The use of derivatives may result in the fund being leveraged (where market exposure and thus the potential for loss by the fund exceeds the amount it has invested) and in these market conditions the effect of leverage will be to magnify losses.

Derivative usage

- The Fund may utilise financial derivative instruments for hedging and/or investment purposes, or to manage foreign exchange risks. The use of derivatives for hedging and/or investment purposes is expected to be very limited, mainly in those cases where there are significant inflows into the Fund so that cash can be invested while the Fund's investments in equity and equity related securities is maintained.

A summary of investor rights can be found in English on our website - https://www.aberdeenplc.com/legal. Any decision to invest should take into account all objectives of the fund. To help you understand this fund and for a full explanation of risks and the overall risk profile of this fund and the shareclasses within it, please refer to the Key Investor Document available in the local language, and Prospectus available in English, which are available on our website www.aberdeeninvestments.com. The Prospectus also contains a glossary of key terms used in this document. The Fund Management company may terminate arrangements for marketing the fund under the Cross-border Distribution Directive denotification process.
This Fund concerns the acquisition of units or shares in a fund, and not in a given underlying asset such as a building or shares of a company.
[1] These are the maximum charges that we might take out of your money before it is invested. In some cases, the charges may be less and you should speak to your financial advisor about this.
[2] The other operating charges figure (OOC) is the total expenses paid by each share class, against its average net asset value. This includes the annual management charge, the other operating expenses and any synthetic element to incorporate the ongoing charges of any underlying qualifying investments. The OOC can fluctuate as underlying costs change. Where underlying costs have changed, the OOC disclosed in the Fund offering Documents will be updated to reflect current changes.

The fund is a Luxembourg-domiciled UCITS fund, incorporated as a Société Anonyme and organised as a Société d'Investissement á Capital Variable (a "SICAV").
The fund has been authorised for public sale in certain jurisdictions and private placement exemptions may be available in others. It is not intended for distribution or use by any person or entity that is a citizen or resident of or located in any jurisdiction where such distribution, publication or use would be prohibited.
The fund is not registered under the United States Securities Act of 1933, nor the United States Investment Company Act of 1940 and therefore may not directly or indirectly be offered or sold in the United States of America or any of its states, territories, possessions, or other areas subject to its jurisdiction or to or for the benefit of a United States Person. For the definition of United States Person, see the current prospectus.

For more detailed information about Morningstar's Analyst Rating, including its methodology, please go to: http://corporate.morningstar.com/us/documents/MethodologyDocuments/AnalystRatingforFundsMethodology.pdf
The Morningstar RatingTM for funds, or "star rating", is calculated for managed products (including
mutual funds, variable annuity and variable life subaccounts, exchange-traded funds, closed end funds, and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The Morningstar Rating does not include any adjustment for sales loads. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. The weights are: 100% three-year rating for 36-59 months of total returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to
give the most weight to the 10-year period. Past performance of a security may or may not be sustained in future and is no indication of future performance. For detailed information about the Morningstar Analyst Rating for Funds, please visit http://global.morningstar.com/managerdisclosures
