Accurate as of: 5 October 2026

What is this product?

Type

- This product is a class of shares of the Sub-Fund and denominated in EUR. The Fund is an open-ended investment company with variable capital ("SICAV") and qualifies as an Undertaking for Collective Investments in Transferable Securities ("UCITS"), subject to Part I of the Luxembourg law of 17 December 2010 related to undertakings for collective investments ("Investment Fund Law"), transposing Directive 2009/65/EC related to UCITS.
- As an investment fund, the return of the Sub-Fund depends on the performance of its underlying assets.

Investment objective:

- VFF means Value Family Finance. Value refers to the respect for the values of life, Family refers to the importance of security for families and Finance refers to an investment vehicle such as the Sub-Fund intended to help the investor to achieve the security and the respect he is looking out for his savings.
- The Sub-Fund seeks to achieve capital growth over the long term with particular attention to limit the decline of the capital during unfavourable market conditions. To this end, the Management Company may vary its exposure to different eligible asset classes on the basis of signals and factors the Management Company believes are indicative of the future trend and the expected risk of each asset class.
- There is however no guarantee that this objective will be achieved.

Investment policy:

- The Sub-Fund will invest mainly in units of other UCITS and/or other UCIs selected and actively managed in accordance with the following limits: total return funds: maximum 50% of its net assets, equity funds: maximum 60% of its net assets, mixed funds: minimum 20% and maximum 100% of its net assets, bond funds: maximum 80% of its net assets, money market funds: maximum 80% of its net assets.
- The Sub-Fund may also invest in exchange-traded funds and in financial derivative instruments for hedging and investment purposes. The Sub-Fund may enter into foreign exchange rates or currencies derivative transactions for investment purposes. The Sub-Fund may reach a maximum of 40% derivatives exposure (netted).
- The Sub-Fund may hold, up to 20% of its net assets, in ancillary liquid assets which consist of bank deposits at sight in accordance with the provisions of article 41(2) of the Investment Fund Law. Notwithstanding the above provision, the above mentioned 20% limit shall only be temporarily breached for a period of time strictly necessary when, because of exceptionally unfavourable market conditions, circumstances so require and where such breach is justified having regard to the interests of the investors.
- The Sub-Fund is actively managed without reference to a benchmark.
- This financial product does not promote environmental or social characteristics and does not have as its objective a sustainable objective.
- The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.
- Given the above investment objective and policy and the risk and reward profile of the product, the recommended holding period is 5 years.

Redemption and dealing: Shareholders may redeem shares on demand, on a daily basis, which is a bank business day in Luxembourg.

Distribution policy: Non-distributing shares: any income generated by the Sub-Fund is reinvested.

Intended Institutional Investor

The Sub-Fund targets informed investors who are advised to invest only part of their assets therein. The recommended investment horizon is approximately between 3 and 5 years.

This share class is available for institutional investors.

The minimum investment is EUR 100.

Term

The Sub-Fund and class of shares were incorporated for an undefined period. The manufacturer may not terminate it unilaterally. The board of directors or an extraordinary general meeting of shareholders may terminate this product under the conditions set forth in the prospectus.

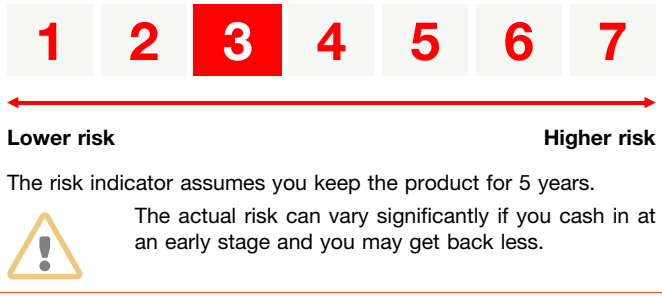

Practical information

Depositary: Quintet Private Bank (Europe) S.A., 43 Boulevard Royal, L-2449 Luxembourg.

Further information: The prospectus of the Fund and periodic reports are prepared for the entire Fund. Assets and liabilities of each sub-fund are segregated by law, meaning that the liabilities allocated to one sub-fund may not impact the other sub-fund. Shareholders are entitled to convert their shares in shares of another sub-fund/shares of the Fund, as described under "How to convert shares" section of the prospectus. Copies of the prospectus and of the last annual and semi-annual reports as well as other practical information such as the latest price for the shares may be obtained free of charge, in English, at the registered office of the Fund: 4, rue Jean Monnet L-2180 Luxembourg, Grand Duchy of Luxembourg and on the following website: www.andbank.com/luxembourg/.

What are the risks and what could I get in return?

Risks

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Not all risks affecting the Sub-Fund are adequately captured by the summary risk indicator.

This rating does not take into account other risk factors which should be considered before investing, these includes: liquidity risk, counterparty risk, operational risk, currency risk, duplication of certain fees and expenses, use of derivatives, market risk and sustainability risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Beside the risks included in the risk indicator, other risks may affect the Fund performance. Please refer the "Risk Considerations" section of the prospectus of the Fund.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performances of the product over the last 10 years, by identifying, depending on the performance scenarios and as defined in the Key Information Document's EU regulation, all overlapping sub-intervals individually (i) equal in length to the recommended holding period which start or end in each month which are contained within that period of 10 years or (ii) equal or shorter in length to the recommended holding period, but equal to or longer than one year, which end at the end of that period of 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between 30 September 2017 and 30 September 2022.

Moderate: this type of scenario occurred for an investment between 30 November 2018 and 30 November 2023.

Favourable: this type of scenario occurred for an investment between 31 March 2020 and 31 March 2025.

What happens if Andbank Asset Management Luxembourg is unable to pay out?

You are exposed to the risk Andbank Asset Management Luxembourg, might be unable to meet its obligations in connection with the product. This may materially adversely affect the value of the product and could lead to you losing some or all your investment in the product. A potential loss is not covered by an investor compensation or protection scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.
We have assumed (i) in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario and (ii) € 10,000 is invested.

Example Investment € 10,000	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	**€ 533**	**€ 1,992**
Annual cost impact*	**5.3%**	**3.4%**

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period, your average return per year is projected to be 5.5% before costs and 2.1% after costs.

Incidental costs taken under specific conditions		
Performance fees	**0.00%.** There is no performance fee for this product.	**€ 0**

How long should I hold it and can I take money out early?

Recommended Holding Period ("RHP"): 5 years

The RHP has been defined by taking into account the above investment policy and risk and reward profile. You should be prepared to stay invested for at least 5 years. However, you can redeem your investment without penalty prior to the end of the RHP, or hold the investment longer. Investors may request redemption of shares no later than 2:00 p.m., Luxembourg time, the business day preceding such valuation day in order to be dealt with on the basis of the net asset value per share calculated as of that valuation day. Any applications received after the applicable deadline will be deemed to be received for the next valuation day. Any cashing-in before the end of the RHP may have a negative consequence on your investment.

A swing pricing mechanism may be applied, whose adjustment will not exceed 2% of the original net asset value under normal conditions.

How can I complain?

Any investor enquiries or complaints should be submitted to the Management Company at Andbank Asset Management Luxembourg, 4, Rue Jean Monnet, L-2180 Luxembourg, Grand Duchy of Luxembourg or at compliance@aaml.lu and any response will be made in writing. The complaints handling policy established by the Management Company may be requested, free of charge, by contacting the Management Company at the email address compliance@aaml.lu or through the following website: www.andbank.com.
